PERSONAL PROFILE

A professional, extremely detail-oriented, and efficient designer with ten years of experience. An innovator who enjoys the constant challenge of adapting to and balancing the needs of the client with the demands of the bottom line. An expert in meeting time and budgetary constraints while producing professional and creative work.

CAREER HISTORY

MediaSpan Online Services

Irvine, California

Web Designer: 2005 - 2008

Created successful web presences by working in direct cooperation with account managers and clients, all the while implementing industry best practices and staying within budgetary guidelines. Ensured that designs met the client requirements and proofs by working closely with serverside/backend developers. Created wireframes and PSDs of different web pages and coded the finalized design using the latest CSS, XHTML and W3C standards. Advanced to a lead position on the award-winning MediaSpan design team and was counted upon for such senior tasks as quality control and cross-training, thus demonstrating a thorough and complete knowledge of both techniques and processes inherent to design. Planned and guided the concept, design, and development of new layouts, graphics and web interfaces.
